Education

Bikaner Technical University (BTU)

B.Tech in Computer Science Engineering

CBSE Class XII: 81.8% • CBSE Class X: 81.6%

2022 – 2026

CGPA: 7.42/10

Skills

Programming: Python, SQL, Java (Basic)

AI/ML: Scikit-learn, Pandas, NumPy, NLP, Random Forest, Model Evaluation, Data Preprocessing

Frameworks: Flask, Django, REST APIs

Tools: Git, Excel, VS Code, Google Colab

Concepts: Data Structures, Algorithms, DBMS, OOPS

Experience

Government of Rajasthan

Informatics Analyst Intern

May 2024 – June 2024

- Audited and validated **10,000+ citizen records** across statewide governance systems.
- Automated Excel-based reporting workflows, reducing manual effort by **40%**.
- Conducted discrepancy analysis using Python and SQL.
- Delivered structured insights supporting cross-functional teams.

Bikaner Technical University

Event Coordinator

Apr 2023 – Present

- Managed participant datasets using Excel dashboards for university-scale events.
- Coordinated logistics and workflows with multiple stakeholders.
- Analyzed feedback datasets to improve engagement outcomes.

Projects

JanSahay — AI Governance Intelligence System

- Built NLP-based grievance classifier using TF-IDF and Multinomial Naive Bayes.
- Developed Random Forest model for welfare scheme recommendation.
- Created synthetic datasets (1500+ grievances, 500+ welfare records) for training.
- Designed hybrid ML + rule-based routing system for sensitive complaints.
- Developed Flask dashboard for real-time analytics and workflow monitoring.

Real-Time Weather Forecasting System

- Built ML-based forecasting web application using Django and Random Forest.
- Trained model using historical datasets (temperature, humidity, pressure, wind).
- Integrated OpenWeatherMap API for real-time prediction pipeline.
- Developed visualization dashboards for trend analysis.
